## Technical Skills

**Languages & Querying**: Python, SQL (PostgreSQL, MySQL)
**Big Data & Streaming**: Apache Spark (PySpark), Apache Kafka, Apache Flink, Delta Lake, Medallion Architecture
**Cloud Platforms**: AWS (S3, Glue, Lambda, Redshift, EC2, IAM, CloudWatch), Azure (Data Factory, Databricks, Storage, Functions, SQL)
**Data Engineering**: ETL/ELT Pipelines, Batch Processing, Stream Processing, Enterprise Data Warehousing, Dimensional Modeling (Star Schema)
**Tools, Warehousing & BI**: Snowflake, Docker, Git, GitHub, Linux, Visual Studio Code, Power BI

## Professional Experience

**Bluvera Technologies** **Jul 2023 – Present**
*Data Engineer* *Bengaluru, Karnataka, India*

- Spearhead end-to-end architecture and deployment of enterprise batch/stream ETL pipelines across AWS and Azure, handling 500GB+ daily transaction records.
- Architected scalable batch pipelines using Python, PySpark, AWS Glue, and Amazon Redshift, optimizing query performance by 35% and reducing execution costs by 20%.
- Engineered real-time streaming ingestion using Apache Kafka and Apache Flink to process high-volume events with sub-second latency for real-time dashboards.
- Designed dimensional data models (Star Schema) and automated CI/CD workflows with Docker, Git, and AWS CloudWatch, improving pipeline release cycles by 40%.

**Mu Sigma Inc.** **Aug 2022 – May 2023**
*Decision Scientist - 2* *Bengaluru, Karnataka, India*

- Built scalable analytical pipelines in Azure Databricks, Azure Data Factory, and PySpark for a global FMCG client, modeling supply chain metrics across 1M+ SKU lines.
- Developed interactive Power BI dashboards and executive KPI suites, accelerating demand planning decision-making cycles by 25%.
- Executed exploratory data analysis, feature engineering, and statistical modeling to optimize inventory distribution and mitigate stockouts.

**FlipRobo Technologies** **Jan 2022 – Jul 2022**
*Data Analyst* *Remote*

- Transformed, validated, and analyzed structured datasets using Python and SQL, guaranteeing 99%+ data accuracy across core business analytics.
- Automated weekly KPI reporting workflows and dashboard views, saving 10+ hours per week in manual analytical reporting.

**ICICI Bank** **Oct 2020 – May 2021**
*Relationship Officer (NRI Banking)* *Hyderabad, Telangana, India*

- Managed a high-value portfolio of NRI accounts, delivering dedicated relationship management, case resolution, and end-to-end customer support.
- Drove cross-functional revenue growth by cross-selling strategic financial products, including investment instruments and specialized banking services.

## Key Projects

**Enterprise Retail Analytics Platform** | *AWS, Databricks, PySpark, Delta Lake, Power BI*
∗ Built an end-to-end Lakehouse using Medallion Architecture (Bronze/Silver/Gold) on Databricks to ingest multi-source retail transactions, applying broadcast joins and partition pruning to boost query speed by 40%.
**Real-Time Event Streaming Platform** | *Apache Kafka, Apache Flink, Python*
∗ Engineered an event-driven streaming platform handling high-throughput event streams with Flink windowing, stateful processing, and checkpointing for fault tolerance.
**Cloud Data Engineering Platform** | *AWS Glue, Amazon S3, PySpark, Redshift*
∗ Constructed automated AWS Glue ETL workflows with S3 data lake storage and Redshift warehousing, supporting schema evolution and automated data quality checks.

## Certifications & Education

**Data Engineering Professional Certificate** – AWS & DeepLearning.AI *Dec 2024*
**Get Started with Databricks for Data Engineering** – Databricks *Jan 2025*
**Python for Data Science, AI & Development** – IBM *Aug 2024*
**B.E. in Mechanical Engineering** – Osmania University, Hyderabad, Telangana *2016 – 2019*
